

# Training Available to Industry

- This is not all the training available for industry - this is a summarised list based on initial native industry needs.
- Unit of Competency and Training Package information is available from: [training.gov.au](https://training.gov.au) - Search
  - Packages have specific packaging requirements, where a number of core and elective units are required to be completed.
  - Units of Competency that are listed within a training package may not be able to be completed as a single unit.
  - There are additional units of competencies, specifically within the Forest and Wood Products Training Package, that are elective subjects within the following groups:
    - Safety and Environment, Forest Nursery Production Operations, Silvicultural Operations, Timber Harvesting and Haulage Operations, Site Access and Roding, Fire Control, Chemical Application and Other Forestry Operation.
  - There are additional units of competency and training packages including:
    - Business Services Training Package,
    - Agriculture, Horticulture and Conservation Land Management Training Package.
